

Dustless

DustBull

Dust Shroud For Gas High Speed Saws

Stops
Dust
Storms!

For controlling dust when cutting brick, block and pavers

Magnet allows tail end of the shroud to hang down during cutting, but secures the shroud close to the saw for convenient transportation.

Features:

- Wide mouth to capture maximum dust
- Hinged front bracket for working at different angles
- Magnetized trail end of shroud for easier handling
- Built-in stand with rubber feet
- Rubber dust deflector captures more dust
- Fits STIHL, Makita and Husqvarna highspeed saws
- Fast and easy to install

Benefits:

- Extends saw life by keeping dust away from the motor
- Helps protect worker from inhaling harmful concrete silica dust
- Meets OSHA guidelines for controlling silica dust
- Eliminates the "dust storm" associated with cutting

DustBull includes:

- 1 Steel Shroud
- 1 Magnetic Clip
- 3 Bolts
- 2 Screws

DustBull D1763 fits Husqvarna® gas highspeed saws
DustBull D1764 fits STIHL® gas highspeed saws
DustBull D1765 fits Makita® gas highspeed saws
