

STEALTH-12

The **MAXCUT STEALTH-12** is a sleek, mighty, and technologically advanced tool that efficiently cuts concrete, brick, decorative stone, and utility pipe.

The powerful hydraulic motor facilitates cutting of precise, square corners up to 25" (64 cm) deep.

We engineered the **STEALTH-12** with the end user in mind to deliver an ergonomic saw with optimal balance. The hose management guide and light weight design help to reduce operator fatigue.

At **MAXCUT** we understand that details matter which is why we incorporated solutions to common issues into the **STEALTH-12**.

Standard features include; an X-ring cover seal, a self-retained clamping plate and nuts, a reliable srench holder, a durable hand guard, and a replaceable rubber bumper pad.

In addition we made the **STEALTH-12** universal to be compatible with the majority of bars, chains, and sprockets on the market today.

CUT THROUGH IT ALL WITH MAXCUT
